

BITTPODA.COM

bittpoda.com is dedicated to Blue Chip information technology, oil and gas, green energy, hydropower, hospitality services, stock market shipping and logistics, biomedical research and also investing in business start-ups and acquisitions to generate treasures to finance investors.

ABOUT BITTPODA.COM

We are a global systematic investment manager. Our centralized research focuses on the development of advanced quantitative techniques for uncovering market opportunities and employs them within a disciplined framework that results in efficient exposures.

OUR PURPOSE

This means supporting our colleagues, customers and clients, and the communities and environment in which they operate, for the benefit of all our stakeholders. It means helping people and businesses unlock their potential and plan for the future with confidence, building relationships that stand the test of time. And it means that we continue to be there for the long-term, whatever the climate, making decisions that are right for today and for generations to come.

OUR PRINCIPLES AND AMBITION

We Approach Sustainability From Three Perspectives:
An Asset Owner, An Asset Manager, And As A
Company In Our Own Right

While our responsibilities and obligations in each of these three roles may differ, as we discuss below, our approach in all three is united by a common set of principles and ambitions, set out in the box at the bottom of the page.

We serve as an asset owner on behalf of Prudential With-Profits policyholders, and our pensions and annuity customers. This means we make decisions about how to allocate money to different asset classes and which asset manager should manage our money.
